

MESSAGE

In this small publication, you will find big inspiration from around the world. This piece showcases a selection of our favorite pieces from our vast collection, many of which are new to the resort.

The sculpture collection here at Nemaocolin Woodlands Resort includes pieces of history as well as contemporary and traditional works of art, from artists worldwide, some standing over 16-feet tall and weighing over a quarter of a ton.

Whether you are cruising by the sculptures, walking our paths, riding in a golf cart, out for a run or riding a bike, take a moment to stop by one or more of our inspirational favorites. We believe many of the pieces will draw you in, to analyze and to move your intelligence. Our selections will influence you by suggesting positivity and they will assist in your relaxation while here at our world-class resort.

Much gratitude is extended to Joseph Hardy and Maggie for acquiring and bringing this impressive sculpture collection to Nemaocolin Woodlands Resort. On behalf of Hardy Family and the Nemaocolin associate family, we invite you to visit the property regularly and meditate alongside some of the most beautiful sculptures in the world.

AN INSPIRATIONAL GUIDE
